

PROJECT PROFILE

Name	Cusworth Hall - Museum of South Yorkshire Life
Client	Doncaster Metropolitan Borough Council
Contractor	M&E contractors: M&R Electrical / Harbon
Value	Phase 1 & 2 - £76,500
Products	CCTV & Monitoring, Perimeter Detection, Audio PA, Traffic Control,

DESCRIPTION

BLE Security were selected/nominated for the CCTV and Exterior systems at the recently refurbished listed buildings at Cusworth Hall Museum, Doncaster.

Overview

Systems incorporated fully functional “Forward Vision” MIC1-400 dome and Static cameras integrating external “Optex” Infra-red beams, movement detection and alarm management. 24/7 Digital recording & Central Station Monitoring with two way audio PA. via Broadband. The installation was completed in two phases (Car Parks & Main Buildings) over two years and included hydraulic “Road Blocker” for the car park.

Contract Requirements

- Continuity of Service & Systems across phased works
- Attention to design and aesthetics in keeping with listed building
- Implementation of CCTV Central Station Monitoring
- Comprehensive Service & Maintenance between phases & post contract.

Solution

- Providing design & technical resource at phase 1 & 2 stages
- Bespoke architectural housings for covert Infra-red beams
- Project Management & Consultant / Contractor / Client liaison
- Continuity of installation & phased handover of system
