

PROJECT PROFILE

Name	Rail PA System
Client	NEXUS – Tyne & Wear PTE
Contractor	KeTech Systems Ltd
Value	£45,500
Products	Rail Public Address

DESCRIPTION

BLE Security were selected to provide teams of experienced engineers for a corrective maintenance and re-commissioning programme, working to a tight programme over eight weeks with **KeTech Systems Ltd** and **NEXUS**.

Overview

An existing installation of a public address system with the facility for pre-recorded, automated and manual announcements at 47 stations from a central control centre. Infrastructure is via fibre optic network PC controlled Digital recordings at each location.

Contract Requirements

- Continuity of Service & Works Programme
- Working to Railway Health & Safety Procedures
- Daily Reporting & Supervision
- Working to Budget.

Solution

- Providing resource to assess and correct known issues with the system at 50% of stations.
- Report and correct other unknown issues as required at all 47 stations.
- Trackside & Night working as required.
- Commission & phased handover of systems at all 47 stations.
