

**PROJECT PROFILE**

<b>Name</b>	Denso Manufacturing Ltd
<b>Client</b>	Denso
<b>Contractor</b>	BLE
<b>Value</b>	£90,000 up to date approx
<b>Products</b>	Access/CCTV

**DENSO**

Denso manufacturing in Telford has recently had installed by BLE the Siemens/Bewator (Cotag) access control system with full photo ID, with integrated bar code for time and attendance. Each door has an IDL Door Detective to stop tailgating and to monitor who's in a particular area. Also BLE has installed a further 18 cameras to overlook the new factory warehouse this has all been wired in Cat5 and using passive converters to eliminate excessive cabling. Twelve new 19" TFT monitors have been installed to compliment the control room.
